

Health, Safety and Protection

'Chance favours the prepared'

The world of health, safety and protection has evolved. Its now more efficient, more professional and smartly integrated.

Protect Life the organisation

Protect Life Ltd is a fairly new company with its head quarters based in the United Kingdom. We plan to have a presence all countries where our products and services are required, appreciated and economically sustainable.

Our mission is to be the best vendor of quality health, safety and protective goods.

Health, Safety and Protective Solutions

Our company slogan is 'Chance favours the prepared' we firmly believe that taking preventative measures can reduce the risk of health being jeopardised.

We can also help you to prepare for those risks that are almost inevitable and hence reduce the chance of adverse impacts to your way of life.

Shopping for the products you need

Protect life have put a lot of resource into developing an e-commerce platform that customers and internal staff can work with easily, quickly and successfully. Customers can login from anywhere in the world, present their order and pay for it. Tracking previous orders, reordering and presenting express orders (fast track orders) is a breeze.

Internal staff can also login and work from anywhere in the world "a true e-commerce platform" stated the Managing Director.

Protect Life Ltd takes online security very seriously, when customers place orders, they are taking advantage of our advanced secure server. The secure server software encrypts all information you input before it is sent to us. As an additional security measure, credit card numbers are encrypted both before an order is processed and when stored on our database.

Help, support and advice

Our support model is hard to beat because:

- Our Customer Services team are available and we have special dedicated support line for Health and safety matters and Emergency preparedness events / guidance. Which operate 24x7x365;
- We have an online ticket management system which manages a variety of issues;
- With some of our risk assessment / consultancy services we give you full access to an online knowledge base and a support / knowledge pursuit hot-line;
- All our staff work to high customer care and service delivery standards.

Work Safety

Workplace health and safety - all employers have a duty of care as regards the health and safety of their employees, documented legal and unwritten moral codes underpin these responsibilities. The laws around health and safety are becoming more pronounced. Terms like corporate manslaughter are surfacing, putting more personal responsibility on the shoulders of the employer. We deliver a number of accredited courses that will allow management and the directorate to understand where attention needs to be focused.

Security Solutions

The solutions focused on here are:

- Retail security;
- Corporate security;
- Commercial security;
- and Mobile security patrols.

If you have a requirement, call us to arrange a consultation.

Professional Services

Protect Life offer a wide range of 'best in class' professional services. H&S Consultancy, Emergency Preparedness consultancy, Security Solutions, Change Management, Clinical Waste Collection, Emergency Light Testing, Light Maintenance, H&S Resource, PAT Testing.

Are you serious about Health & Safety? Now you can demonstrate it "Get it all done under one roof - let us do it for you."

Training

We have 4 primary services which we can deliver locally, nationally or internationally:

1. Defining your needs - Help you to evaluate your training requirements and deliver a plan for training;
2. Planning - Help you to present and implement a clear and transparent HSP training plan;
3. Deliver one-off or periodic training for individuals / groups. With many of our courses you have the option of Training being delivered face to face or via interactive computer based training;
4. Your training department – we can manage all your training issues for you.

Health Care and Medical

Protect Life supplies more than 3,000 high quality Health Care and Medical products. These products energise both domestic and commercial (private / public sectors) markets. Traditional and natural health products are available along side the tools and training that the emergency service need to do their work. We also have access to on-demand products which support better life-systems (i.e. living aids) and products for diagnostics testing.

Accident and Emergency

You will find our A&E department under the general heading 'Emergency Preparedness.' If you work in an A&E department or need to be able to react effectively to events that are dealt with under this subject area. You will find our A&E department is comprehensive.

Detection and Diagnosis

Detection and diagnosis products can be found under the general heading 'Health Awareness.' Our goods mainly focus on detection of hepatitis, STIs, alcohol, blood disorders, urine and breath.

Health Care and Medical Training Products

High quality training products for the emergency services and the health care industry. Products such as: manikins; air-way trainers, training CD/DVDs; anatomical models; IV trainers; books and charts.

General Health Care and Medical

We stock a large range on nonprescription medication. Primarily for supply to large organisations that need to keep their medical facility current. Products are however available to all persons over 18 (subject to volume regulations).

General Aid

Here we stock products which fall under the following categories: pain relief; walking aids; heat therapy and alternative therapy. All these products can be described as living aids (things that make life a little easier for the user).

Natural Health Products

It is recognised that there are many ways of healing or supporting our ailments. We stock over a thousand of the less controversial products.

Emergency preparedness and surviving disasters

We live in uncertain times - natural disaster and global terrorism form part of our daily risk considerations. Our emergency preparedness department intends to facilitate your readiness for any risks that you feel need preparation or mitigation. Standard emergencies like fire or toxic smoke are catered for. We also support other risks such a flood damage, NBC events, pandemic events (e.g. H1N5 and H1N1)

Surveillance and counter surveillance

At first glance Surveillance and counter surveillants do not seem to fit into the remit of health safety and protection. But we feel that it is a very important part of protection. Basic example of this would be the ability to keep track of loved ones; the ability to give some freedom to those that have memory problems; the right to know if your business is being spied on; the right to monitor your highly secure / sensitive environments.

Whilst the vast majority of these products can simply be purchased by anyone:

- Some of the devices in this section can only be seen by people that have logged in to our site.
- Some products can only be purchased by Law enforcement bodies;
- And some products need government authorisation prior to there purchase.

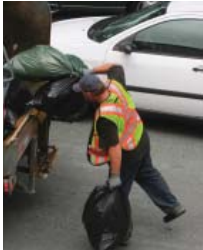

We also stock a good range of covert and overt ballistics ware.

There are large range of professional security services that fall under this section please ask for details.

Waste Management

Protect Life - Waste Management department effectively, a waste company, has a many professional waste services which span:

- Waste management
- Clinical waste disposal
- Office waste removal
- Confidential waste shredding and disposal
- Construction waste removal
- Hazardous / radioactive and/or toxic waste disposal
- Commercial and/or industrial waste removal

Complete sign solutions

We can't always hear a good angel guiding us. Our sign solutions department is extensive and you can access over a million in stock signs / display products at any time. This department provides signs for all occasion/events.

From door signs to road signs, from desk signs to display boards, from traffic management to marine safety, from photoluminescent floor tapes to illuminated hanging exit signs. From adhesive to ridged tuff signs, from construction site safety to VIP and conference walkways and displays.
